

HEART OF AMERICA

BEFORE CLASS

- Each class participant will need their own copy of Claudia's Heart of America CD.
- Print the pages from the CD before class. You may choose which hoop size you prefer to use and print only the instructions for that size hoop. In other words, you will print out only 1 copy of the #5 step. Staple the pages together or put them into a binder in order for ease of handling!
- Read and follow the directions on the "Cutting Instructions" page. If you don't want to use Best Press you may use Magic Sizing. It's a good idea to label all the cut pieces.
- The only piece you will need for the first class is the 15" x 15".
