BERNINA⁺

Consistent Thread Tension

Effortlessly adjust and reset thread tension for specialty threads and techniques.

Thread Cutter

Three thread cutters make the cutting of upper and lower threads especially easy.

LED Sewing Light

Illuminates the sewing area around the needle.

Needle Threader

Seamlessly guide the thread through the eye of a needle.

LCD Screen

The illuminated screen provides information and settings, such as selected stitch, stitch length, width, needle stop and recommended presser foot.

Two Spool Holders

Accommodates a variety of threads and is convenient for double needles, decorative techniques and winding bobbins.

Total Stitch Control

Press the buttons to alter stitch length, width and needle position. Settings are displayed on-screen and are temporarily saved.

Direct Stitch Selection

Access each stitch at the press of a button. Preset with the most commonly used settings.

Quick Reverse Button

Easily enables temporary and permanent sewing in reverse.

Needle Stop and Sewing Speed

Set needle stop up or down and cut the sewing speed in half at the touch of a button.

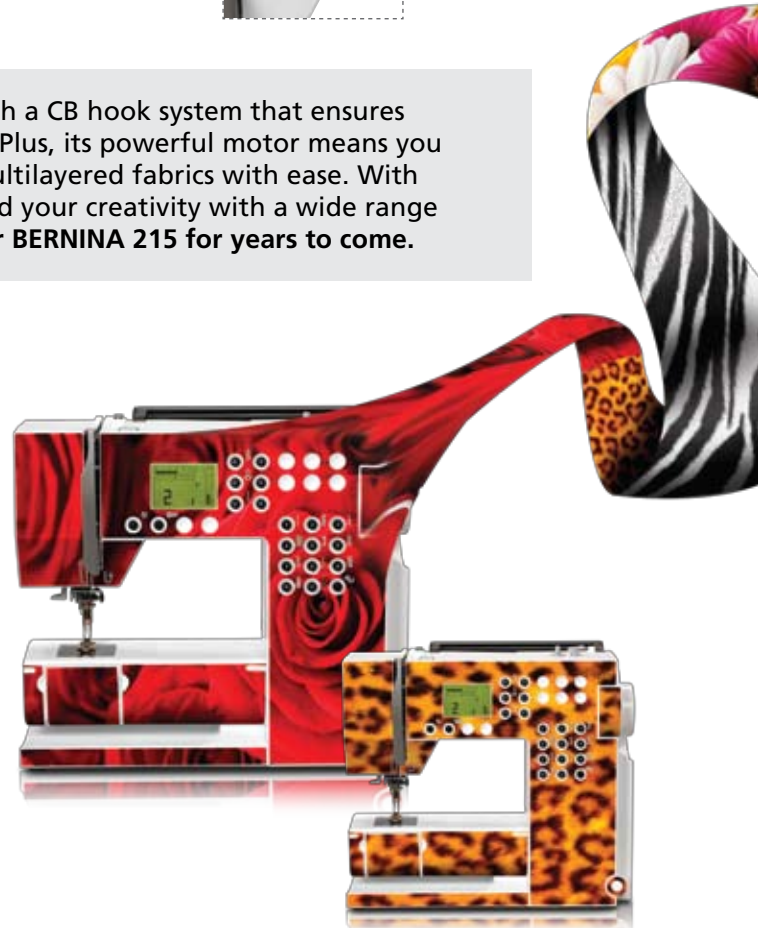

The high-quality BERNINA 215 is built with a CB hook system that ensures consistent thread tension and stitch quality. Plus, its powerful motor means you can drive the needle through thick and multilayered fabrics with ease. With sturdy construction and the ability to expand your creativity with a wide range of accessories, you'll be sure to enjoy your BERNINA 215 for years to come.

Customize Your New BERNINA 215 with Exclusive DesignSkins[®]

BERNINA DesignSkins[®] are precision-cut vinyl stickers that are easily applied to your BERNINA, allowing you to sync your machine with your style. Simply visit the website to upload your own image or choose an existing design from our online gallery and in just a few days your custom DesignSkin[®] will be at your door!
