## The Sewing Machine Buzz By Jeff Vogel

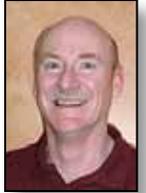

**Save the dates...** November 29, 30 and December 1 for our first ever 3-day hands-on Floriani Event featuring sewing, embroidery and quilting. This three-day format is less stress and more learning. Details follow in this newsletter.

If you loved the BERNINA Academy we hosted last year, then the new one on September 28 and 29 will be even more fun. You are NOT required to have attended the first one to come to BERNINA ACADEMY II. Heather has developed an all new

set of sewing projects to show us how to use our sewing machines.

I will be teaching at the Black Canyon Quilt Show on July 20; all about thread, needles, tension and how they affect free-motion quilting.

Thank you for your continued support!

## Hi Fashion's Quilters' Quarter Inch...

New Season... New Machine, I upgraded my Bernina. The B180 was very outdated technology and I am SO excited for that new Jumbo Bobbin and Dual Feed! Yes, all this coming from the Baby Lock Girl; the thing is I need to have both, it is that simple. In August I am going to Baby Lock for a week and am super excited to get updated on my training. It has been about 4 years since the last time I was there with my Baby Lock Family. They really take care of their people. Last time, when I arrived at the hotel there was a gift basket waiting for me which included my itinerary, name badge, maps, chilled wine, chocolate and more! You will hear all about it when I return.

My boys are growing so fast and getting all independent, while it is sad to leave the baby stage, I am ready for a little independence of my own.

That wonderful shopper, **Angie**, I am sure has much in store for us! She just returned from Quilt Market, I can't wait to see it all!

**Lorraine** has a new College Graduate moving into the next stage of life. Even with those changes Lorraine has been able to put

*by Trista Pike*

together some awesome new classes in addition to her monthly 12 Days. Extra Credit!

**Julie** has her creativity in gear, with Stitches Garden and her monthly 'out of the Anita Goodesign box' embroidery workshop; she is working hard to have these ready-set-go easy for you.

**Morgan** is back! That is when we can get her, she has one more year of high school to go. At the age of 5 she started working for Jeff at the Fabric Store folding fat quarters! We are SO excited to have her here with us!

**Penny** is learning the ropes, with all the changes in her life she is still able to come in with a smile. Thank you, Penny for all your help!

Ready or Not... The holiday season is coming. I love thinking about all the good smells of fresh made pumpkin pie, apple pie, turkey. Yes, I went there... Thanksgiving is my Favorite! Happy Holiday Prepping, my table is ready for a new runner!

Cheers, Happy Sewing People.

## TECH CORNER

By Jeff Vogel

Jeff hired another technician; his name is Art. The goal is to have our machine service turnaround time to less than one week. If you are having a problem with your machine, please leave it threaded and presser foot attached. In order for us to fix your machine we need to re-create the problem.

Instead of doing appointments, we have a new "Q" system. The way this works is, you call us, and we will record the service information and assign a number. When your number is coming up we will call you and when you bring your machine in, it will go to the front of the line.

We also have an emergency fee if your machine absolutely needs to be fixed ASAP. We try to accommodate all your needs and be fair to all. Did you know that there are new LED light bulbs for your older machines? They provide brighter light and do not get so burning hot. Bring in your machine and we will install one for you.

Happy Sewing!
