

QUILTS

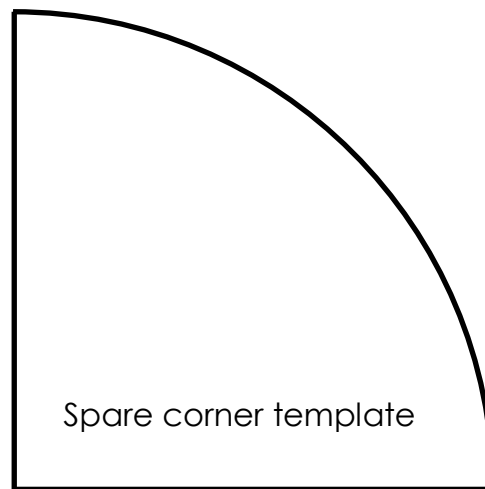

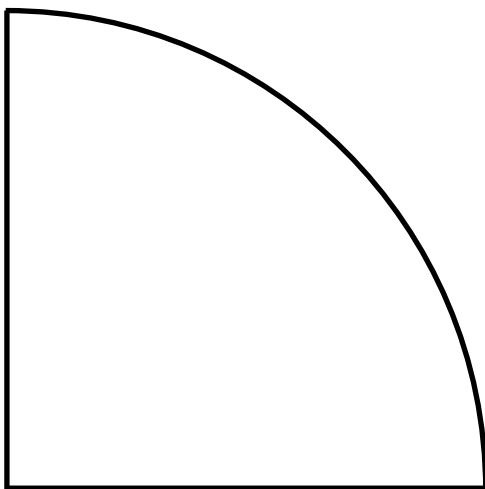

illustrated

Begin cutting fabric & labeling: Using clips/pins as you go! This is **ESSENTIAL** to maintaining order and sanity!! There are a **lot** of pieces with just slightly different dimensions. The outer bag pockets have linings, the inner pockets do not have separate linings. Basically the outer bag is fused with **FOAM**, the inner bag is fused with **PFF** during construction. Most of the fusible is cut smaller to reduce bulk in the seams. Yes, I do stay up nights.....

I love to have several bags going at the same time!

You may re-print these sheets for your personal use.

Cut out one of the templates and use to cut curve for both of the inner and outer bag **ENDS**.
Don't forget to save with pattern!
