Marking pencil, Sewline product is my preference. You will use this reference line through out the whole process. Make sure this reference line shows up on you small scale print.

Bernina has a  $\frac{1}{4}$ " foot with a guide. The 57 or 97 Bernina foot is a very helpful tool. Accuracy is very important for your success with this quilt. This foot can be a great aid in accomplishing  $\frac{1}{4}$ " seams. If you own a Bernina, check with the Bernina gals. If you have another brand of machine, you might check with a dealer to see if they have a similar foot

Please make sure you mark your supplies.
