

We realize that it will take a few sessions to become completely familiar with the system, and are always present in the studio during your sessions. So relax and quilt. We're here to assist you along the way as you gain quilting experience.

Included in the rental fee:

- Our machines will be cleaned, oiled and ready for you to start
- Your charges start at the time of your reservation
- Our shop is open from 9-6 Monday-Saturday, 11-5 Sunday. Rental time slots end 30 minutes prior to the store closing. We have morning and afternoon timeslots available and we'll work with you to find a timeslot that best meets your needs
- **Thread & Stitch Quality:** We will wind your bobbins, but you will insert them. You are responsible for ensuring your tension (stitch quality) looks good on the top and back. If you see a problem, and you aren't able to successfully make the tension correction, we are happy to help.
- Please cleanup after you are finished with your session. This includes picking up loose threads, putting away tools, thread spools, pantos and general tidying up.

Quilt Preparation BEFORE Arriving (this applies whether you are renting or if we are quilting for you)

Quilt Top

- Accurately measure the overall size of your quilt top. **Write this number down.**
- Snip any stray threads; this is your last chance.
- Press your quilt top and square it at this time.
- Stay stitch 1/8" all the way around your quilt—this will help keep it square on the machine

Backing Fabric

- Square up backing fabric on all sides and press.
- Ensure the backing fabric is 6" larger on ALL sides than the quilt top.
- Your batting should be the same size as your backing fabric

When you drop your quilt off (If we are quilting for you or if we are valeting for you) we will:

- measure your quilt top, back, and batting to make sure that you have adequate backing/batting.
- Your quilt top must be stay stitched if we are doing the quilting for you (or we are happy to do this for \$10)
