I am so excited that Spring is on its way! Now, with the warmer weather just around the corner it's time to get moving. I see many of you have braved the cold temperatures and kept active by walking or biking. Both are great ways to keep fit, alleviate stress and feel good. Perhaps many of you who were living in Ferron some years ago remember the walking/bike path that was designated on the north side of Canyon road. It is my hope to get that path finished so that it will take us along the road to Millsite where it could branch out to mountain bike trails. This is a great task and will require a lot of planning and work. This trail plan is not complete and there will be many things to look at and work out. The actual pathway plan is just that, a plan in the very beginning stages. If there seems to be a different route that makes more sense, there is room to change plans and develop paths or trails in a different location. The important thing is that we have your ideas and concerns as we move forward. I envision that a good path would create a safer place for people to walk and/or bike to areas that have a beautiful view and are often not seen. I also think developing trails or paths would create a place for good physical activity for youth, and groups that like to compete or run. This project would take a few phases to complete, would have the potential to create some summer work for youth and would take hours of volunteer help as well. We could use your help in this process. Tell me your concerns or ideas and if you would like to be part of the planning team, please contact myself or the city hall.

Spring weather also brings the opportunity to clean up. I have observed several people, even young children that go about the community picking up trash along the roads as they are walking. Thank you for helping to make our city look better. I encourage you to look around your neighborhood and see what you can do to make it look better. There are plans to hold a city-wide cleanup day in conjunction with Arbor day next month so I hope that you will plan to involve your family in that effort. It really takes all of us working together to keep our community clean and healthy.

Lastly, I want to update you on the plans for Millsite Golf Course. As many of you know, the city has made plans to lease the management of the course. This plan will take time to complete as part of the property is leased from the BLM. We are currently in the process of obtaining that property. Our golf course is a great asset to our community but historically it has struggled to make a budget each year. If you are like me, you have not taken full advantage of the course. We will soon be holding a free golf day for Ferron citizens. I hope that you will plan to attend and see what a gem the course really is. Even if you do not golf, this would be a great time for you to take a cart and see the view.

So now is the time, celebrate spring with me! Join with us and make a difference in our community!
