

# Tec 45 and 50 Equipment Requirements

- Double cylinders of at least 70 cf each, with isolator manifold
- Isolator manifold is not required for divers using sidemount configuration.
- Primary and secondary regulators for back mounted double manifolds, one with 7' hose for air sharing and one with SPG. NOTE: In sidemount configuration, one regulator must have the 7' hose and both regulators must have an SPG.
- Stage/decompression cylinder(s) (1 for Tec 45, 2 for Tec 50) with regulator and SPG, with proper labels/markings.
- Tec diving BCD and harness (backmount or sidemount)
- Two multigas EANx capable dive computers, or one multigas computer and a back up single gas computer with dive tables, or one single gas computer and a backup timer and depth gauge with dive tables.
- Exposure suit appropriate for environment and dive duration
- Weight system
- Inflatable signal tube, whistle and/or other visual and audible surface signaling device. Note that a sausage type DSMB may double for the inflatable signal tube
- Reel and DSMB
- Knife/cutting device and back up
- Slate (*recommend wrist slate*)
- Back up mask
- Compass
- Lights (*as needed*) (*Recommend a primary and backup*)
