

Giving Cone

Instructions:

The small cone is made using the pattern as is. To make the larger cone, enlarge the pattern by 150%.

Cut one pattern of inside fabric, one of outside fabric, one of fusible Decor Bond 809. Trim decor bond 1/4" all the way around the piece. Fuse decor bond to wrong side of outside fabric. Pin ribbon to the outside fabric in marked space. Place outside and inside fabrics, right sides together and stitch 1/4" all the way around, making sure that ribbons are contained between the two pieces and leave an opening for turning. Trim corners and clip curves. Turn inside out and carefully press. Stitch opening closed. Wrap the cone as desired, positioning the 'V' notch in line with the top ribbon. Sew another ribbon in place allowing you to tie a bow. Fill your gifting cone with flowers or goodies and share it and show someone you care about them!
