

Class Supplies

Serger, foot peddle, and all tools that came with it (tweezers, extra needles, spool pins and holders) and your serger manual (can be downloaded online)

Four spools of serger thread and solid or tone on tone scrap fabric to make samples with. Precut into 3" x 6" strips. Make 10 to 20. I will have some of these with me. Note: old and cheap thread may or may not work properly in your serger. I recommend Maxi Lock. It can be purchased on Wawak.com or at Sew and Vacuum warehouse.

Glue stick, fray check, scissors, thread snips, long flat head pins, clips, pencil or pen, rotary cutter and a crochet needle or bodkin (optional), stapler, 6" grided ruler or small quilt ruler. I will have supplies that you can borrow.

Bring these specialty threads if you have them...8 or 12 WT, rayon embroidery machine thread, metallic thread, topstitching thread, wooly nylon thread

Serger Hot Pad Project Supplies

2 spools of serger thread of desired color and a decorative thread (I recommend an 8WT or 12WT for the project.) The decorative thread will be seen on the top of your fabric.

Some left over strips of 2 ½" wide jelly rolls or bring some scraps to cut in class to size needed for project. Cotton Batting scrap and/or Insul-Bright and backing fabric (fat quarter size).

Rotary cutter

I will have some serger thread with me and specialty threads in a variety of colors for class use.

Feel free to bring a lunch or snack.

Please arrive at 9AM for a serger check to make sure your serger is working well and has the correct thread tension.
