5. General Plan

1. Roads: Shiloh ended up ordering the speed bumps through Utah Barricade they will take 3-4 weeks to ship.

a. Main Street: Had an instance with a small child that fell through a bridge/walkway. Jean talked to UDOT and they might remove the bridge and fill the area in with gravel. The council discussed recommendations on hiring an engineer to draw up plans to extend main street through the trailer park. We can have it engineered now and put the project in the budget. They will need to engineer the drainage as part of the project. Will see if UDOT will partner with us on the extension. They might have curb and gutter money available. Make the extension similar to the sidewalk/landscaping in front of Rod's house. UDOT will be here next Thursday at 1:00 PM to figure out a plan. Tracy Munson will be here. He is from Cedar City and is in charge of The Dump and Mosey Cave projects. It is also in the plans next year to repave Highway 63 and Highway 12 through Henrieville next year. It will be best if we get the curb and gutter in prior to the repaving.
