Emergency Kits Up to Date?

Summer is finally here. Many have used their air conditioning/swamp cooler, prepared lawn and garden, and done some spring cleaning. But, have you updated your 72/96-hour emergency kit/car kit for summer? It is important to review kits and update them for summer with water, sunscreen, bug spray, clothes, and anything else. Also review everything in the kit to make sure it is still usable. Check expiration dates and that they still do what they need to. Are the band aids too old and brittle to use? Make sure both emergency kits and car kit are ready for summer emergencies.

3 D's of MOSQUITO PREVENTION & PROTECTION

**DRAIN**
- Remove any standing water.
- Clear roof gutters of debris.
- Clean pet water dishes regularly.
- Repair leaky outdoor faucets.
- Even small containers can collect water and breed hundreds to thousands of mosquitoes. They don’t need much water to lay their eggs. (toys, gutters, tires, bottles, barrels, buckets, boats, pool covers, tarps, overturned garbage can lids, etc.)

**DRESS**
Wear light colored, loose fitting clothing. Studies show some of the 174 mosquito species in the U.S. are more attracted to dark clothing and most can bite through tight-fitting clothing of loose weave. When practical, wear long sleeves and pants.

**DEFEND**
Three repellents approved and recommended by the EPA are:
- DEET (N,N-diethyl-m-toluamide)
- Picaridin (KBR 3023)
- Oil of lemon eucalyptus (p-methane 3,8-diol, or PMD)

For more info on local mosquito abatement, visit davismosquito.org. Info from AMCA.
Info on Weber Basin Water Conservation

Despite a wet year, we still need to conserve water resources. Weber Basin provides a free water audit to Davis County residents. These audits bring highly trained interns to your home to inspect your irrigation system, make suggestions to be more water-wise, determine the texture of the soil, find precipitation rate of the sprinklers, and leave the homeowner with a recommended watering schedule and educational materials. Call 801-771-1677 for more info or to sign up. Also, visit www.weberbasin.com/conservation for class lists and more info.

Backflow Class

Required annual testing of all back-flow assemblies is coming up. Back-flow protection is required on home sprinkler systems that use city water and do not have AVB sprinkler valves. For more info, come to our back-flow class at 7 pm on Wed., June 14.

West Bountiful History Needed

We’re still looking for pictures, stories, news articles, etc. regarding West Bountiful’s history for our update to the West Bountiful History book.

We need you to submit corrections that you noticed in the first edition of the West Bountiful History (blue) book and to send us items (pictures and script) of things that would be valuable for our next edition. Please take in any items you may have to city hall during normal business hours, to the attention of the Historic Commission.

We will be creating a special section for any Service Men/Women who have lived in West Bountiful and served this great country, so please contact us with this information as well.

If you have a bit of free time, we also need help compiling the book, so please Debbie McKean @ 801-231-8320 if you can help us.

Youth Council Opportunity

If your child would like to be involved in the Youth City Council program during the next school year, applications are available at city hall or on the website and can be submitted to city hall in June and July, with interviews held in August. Students must be between the ages of 13 & 18, have a GPA of 3.0, and have lived in West Bountiful for at least one year.

UTA Summer Youth Pass

UTA is offering a "Rider's License" for kids/teenagers to have a way to get around all summer without having to ask Mom and Dad to drive them everywhere! The $75 promotional price per pass is available to purchase from May 1 until June 15 (goes up to $99 after June 15) at www.rideuta.com/summer or UTA locations and retail outlets.
Let's Have A Blast!
(Fireworks Rules & Safety)

Legal Fireworks may only be discharged beginning on July 1 through July 7, and July 21 through July 27 between the hours of 11 a.m. and 11 p.m. except on July 4, and July 24, when the evening hour is extended to midnight. Please be courteous to your neighbors by obeying these time restrictions.

A type of aerial firework is now legal. Aerial devices known as “multiple tube”, “repeater”, or “cake” fireworks often look like miniature professional displays and can travel high into the air, as much as 150 feet. Please be mindful of your neighbors property and where your fireworks will land.

Still not allowed are FIRECRACKERS, M-80, CHERRY BOMBS, BOTTLE ROCKETS, ROMAN CANDLES, SINGLE OR RELOADABLE MORTARS, and GROUND SALUTES.

You must be at least 16 years old to handle or light fireworks.

Many children are burned each year by sparklers. The tip of a sparkler burns at a temperature of more than 1,200 degrees Fahrenheit which is hot enough to cause 3rd degree burns. Please be cautious and careful with your children so they aren’t injured.

Door-to-door Solicitation Warning

If someone comes to your door selling products or services, they need to have a West Bountiful City Solicitors photo ID displayed, or produce it when requested by an occupant of the home. If they are rude or disorderly, or if at any time you feel threatened, please ask them to leave and call the West Bountiful Police Department IMMEDIATELY. If you do not want solicitors, place a "No Solicitation" sign at your front door.

Never allow a stranger into your home. If someone approaches your door and informs you that they are with a certain company, request to see their company picture ID card and city-issued solicitor’s registration badge. Teach your children these safety tips.

Call the West Bountiful Police Department (801-298-6000) if you observe suspicious persons or activities.
