

KELLY ENQUIST

Public Works, Police, Fire and EMS services have been my top priority while serving on city council since 2014. Ensuring these essential departments to our city continue to operate efficiently, fiscally responsible, and providing excellent services to our residents.

We have seen major improvements to our city's infrastructure (water system, Page's Lane), amenities at our parks and golf course. These improvements were achieved with the sound leadership and support of our city's administration, department heads and highly skilled employees.

Throughout my term, I've been privileged to be assigned to the Planning Commission. Our goal towards the betterment of our city couldn't have been accomplished without the dedicated members and their experience and knowledge.

Our city is honored to have volunteers who donate countless hours and personal assets to provide entertainment (Art Council's monthly concerts, holiday celebrations) and resources (CERT/EMPAC) to our residents.

As a resident for over forty years, I've watched our city grow prosperously and look forward to ensuring we continue to move responsibly in this direction. I will strive to serve and represent the citizens of this wonderful city of West Bountiful.
