

**MARK PREECE**

In my eight years of service on the West Bountiful City Council, one of the common refrains I hear from our citizens is the desire to maintain West Bountiful's rural feel. I couldn't agree more. The wide streets, the lush greenery, the neighborly atmosphere, and the lack of intrusive retail centers makes West Bountiful much more than a city—It makes it a community. One that I have been proud to call home for the last 35 years. It is my belief that through careful planning and strong leadership, we as a city can sustain this small town feel as we rise to meet the challenges and changes that often accompany growth. I believe this is the greatest challenge we face and I believe we have managed it well for my two terms in office.

Over the last 8 years our city has experienced many notable upgrades. From the enhancements to our city park, to the notable improvements to Lakeside Golf Course, to the addition of several walking trails, these changes have elevated our citizen's enjoyment of this wonderful city—But our work is not done yet! We are currently midway through an aggressive (and much-needed) road maintenance plan. We are also planning significant upgrades to our water sources in an effort to meet future city needs. Please allow me the opportunity to finish what I started and continue serving you on our city council.
