

BRADY TRACY

I am a West Bountiful resident of 29 years. I am a very proud father of a 5-year-old little girl which I want her to have pride for a community she will be raised in. For work, I've been a DJ, producer, and concert/event thrower for over a decade. It's taught me how to manage every nickel and dime. I've watched over the years of how this city has changed so much. In the last 10 years, we've had our taxes increased through water, property, RAP, and now the fire district. I believe future taxes maybe avoidable by adopting a "living within your means" philosophy at our city hall. I also believe that the city should do a major overhaul in beautification and city-wide lighting. Please feel free to contact me and share with me your point of views. The city works for you, the people.
