

## “Stormy Stars”

Taught by Debbie Kalenty of Quilter’s Obsession  
Studio 180 Design Certified Instructor

Class: Saturday November 17, 2018 at Olde City Quilts

Pattern by Deb Tucker / Studio 180 Design

This is a twist on the traditional ‘Storm at Sea’ pattern. Careful placement of fabric value, make some stars stand out, while others recede into the ‘background’. It is truly a stunning quilt !

### **REQUIRED FOR CLASS:**

Studio 180 Design tools:  
Diamond Rect and Square Squared (either size) tools.

“Stormy Stars” pattern (All tools and pattern will be available for purchase before class; NO copies / sharing of pattern allowed!! This is illegal).

General sewing supplies: new needle in machine;  
thread; scissors, marking tool; rotary cutter (new blade suggested); seam ripper, FINE pins suggested....etc.

Project size: 51 x 69 inches

Fabric VALUE is very important in this project. You need three main colors; one color needs a light, medium and dark. The other color needs a light and a dark. Plus white (or very light of third color).

My sample has blue, purple and white. Blue has light, medium and dark. Purple has light and dark; and white is also used.

Fabric requirements and cutting instructions are on the back of this page.

**Please PRE-CUT and LABEL Unit letters (A, B, C, etc) before coming to class. There is a lot to do in class, you must precut BEFORE CLASS to save time.**

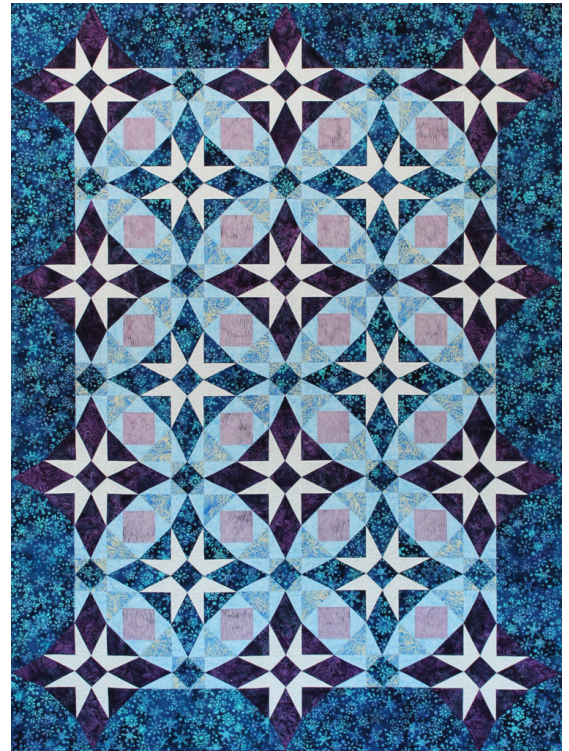

If you have ANY questions, please call or email me. I’m always happy to help!!

See you in class—smile!!
