

Summer's End

FIG TREE & CO

There is something about the colors of the garden and all the flowers and lush greenery toward the end of the summer that are so full of saturated & soft beauty. It is my favorite time of the summer garden and these colors, prints and patterns are my vision of that garden created in fabric. All of the colors are warm, soft and vibrant at the same time, the patterns are floral and comfortable, awash in the golden hour of a late summer afternoon. The feel is definitely a vintage vibe with colors like clover, daisy, persimmon, sunflower and lilac. I hope it evokes feelings of the sun on your face and a basket full of ripe fruit on your arm as you meander by a cottage fence with tall flowers growing wild around it!
