This is an all-day class. Feel free to bring something to eat and drink while you work on your project.

HOMEWORK...It is recommended to complete this before the day of the class to help ensure you finish The Perfect Wallet the day of the class.

You will be cutting out and labeling all of the pieces needed for the wallet before the day of the class. You will be fusing the interfacing to the wallet unit pieces, the card slots and the exterior zipper pockets before the class begins. You will be learning how to install the wallet frame, and continue to develop your skills of reading patterns.

Read all of the directions thoroughly before beginning.

From the main fabric: Fold in half lengthwise

Cut 2 — 8" strips. Sub cut these strips:
Card Slots: Cut 2 – 8" x 16½" (B)
Back of Card Slots: Cut 1 - 8" x 8½" (C)

From accent fabric: Fold in half lengthwise:
Cut 1 accent pattern template (D) Interior Wallet piece
Cut 2 — 8" strips, sub cut these strips:
Exterior Zipper Pockets: Cut 2 – 7 ½" x 8" (E)
Lining Zipper pockets: Cut 4 – 3 ¾" x 8" (F)

From interfacing:

Pellon 911FF

Cut 2 pattern template (G)

****Suggestion:** Cut 2 rectangles 12" x WOF of the 911FF. Pin the two pieces together and fold to accommodate the pattern template. Trace the perimeter of the pattern template with a pencil or other marking tool. Next measure approximately ¼ inch inside the perimeter of as shown on the pattern piece itself. Trim this ¼" away (look at the markings on the master template as the guide). Yes it is a bit larger as it moves around the corner...now worries. The purpose of trimming away the interfacing is to remove bulk in some of the seams.

Cut 2 – 8" x 16½" (H) (interfacing for the card slots piece B)

Cut 2 - 8" x 7 ½" (I) (interfacing for the exterior zipper pockets piece E)

Peltex 71F

Cut 2—8" x 2" (J)

Fusing the Interfacing to the Wallet Unit & Card Slot Pockets:

On page 2, step 1, follow the directions as written. If you are using Peltex 72F (fusible on both sides) **do not** fuse before setting the 911FF on top. Once you have the Peltex and the interfacing **centered on the lining** – G template, fuse it all in place.

Fuse the interfacing to the card slot pockets (step 3). Fuse the interfacing onto the wrong side of the two exterior zipper pockets. The directions for this is in the second paragraph of step 6. Your fusing is complete!!!

We will begin with **Make the Wallet Unit:** step 2 on page 2 together when our class meets.
