I suggest you read the chapter on fabric requirements from the book "One Block Wonders" **before you come to class.**

Large print fabrics (12" to 24" repeats) with minimal background work best for these quilts. Stay away from fabric with a lot of straight lines or stripes.

For a decent size lap to full size quilt using a large repeat fabric you will need 4 to 5 yards. I always buy extra to put on the back or use as a border so you can reference the original fabric.

If you want to make a queen or larger, double the amount of fabric.

DO NOT PREWASH YOUR FABRIC!
