Pro-Stitcher Designer Software

Learn how to use Pro-Stitcher Designer software one hour at a time with Linda Gosselin, a Handi Quilter Educator and Pro-Stitcher owner for many years. Linda will lead a series of one-hour virtual classes, each month focusing on a specific feature of the Pro-Stitcher Designer software.

Register for individual sessions on our website and enjoy these classes from home. You will receive a link by email to join these classes. The classes will be held on the third Tuesday evening each month from 7:00 - 8:00 pm.

Linda Gosselin is a professional longarm quilter from Massachusetts.

She also is a digital designer and has a folder of designs included with your Pro-Stitcher. You may read more about Linda at TheQuiltersHelpdesk.com

Tues July 15 7-8PM EST **Intro to Pro-Stitcher Designer**

Let's explore the many ways you can use Designer to improve your quilting experience and why it is one of my favorite tools! This month, I will show you how I use the program with EVERY QUILT to audition quilt designs and more. Save the work to a USB stick, and it'll be ready for you to set your area, crop if needed, and stitch out at the machine.

Tues Aug 19 7-8PM EST **Master the Repeat**

Audition repeatable designs. Set them up to stitch from left to right and right to left to minimize the number of times you need to advance the quilt. You'll no longer say, "my machine doesn't like to stitch right to left!" If Pro-Stitcher can do it, so can you!

Tues Sept 16 7-8PM EST **"Snippets"**

Before we dive into creating new designs, let's make new designs using segments from designs you already own, what I call "Snippets." Learn to use the Shape tool along with Repeat, Carousel and Reflect, and to save the designs.
