Hello Friends

For those who haven't heard:

Stitch-N-Time will be changing ownership later this year and we feel we owe you an explanation.

Our church is starting a small outreach church near Westminster, MD. We were asked to be a part of it. With much prayer and consideration we made the decision to move.

We did not make this decision lightly, you all have become our sewing family. We have enjoyed learning to know each and everyone of you and treasure the friendships we have built over the last 20 years. Although I was willing to continue to drive back, we felt it would be ideal to have a local family own the business that would share the same values. We began to pray that if God wanted someone else to run the business they would call us. We were not going to make calls trying to find a buyer. Less than a month later I received a call from Mike Newswanger.

Mike wondered if I would be interested in selling the business to him and his wife, Krystal. They had been praying that God would open up something that was more family friendly. He was traveling a lot with his job and wanted to be involved in his family's lives more. After numerous visits together, we felt at peace that Mike and Krystal would carry on with the same level of service and commitment we have endeavored to provide.

A little about Mike, he is a friendly, outgoing, Christian man with several years of sales experience. He understands the importance of honesty and good service. He has been working here for the last several months and I can already see he has the energy and passion to continue growing and improving Stitch-N-Time.

Some of you may remember Krystal. She worked here as a sewing machine technician from 2010-2016. She has always loved people and servicing machines. After becoming a mom to 3 little girls, she continues to repair machines when she gets an opportunity.

Most importantly, we want you to know there will not be an abrupt change. I will be involved for at least two years. I will be here one year nearly full time and one year part time in a support role. I did not make this decision lightly. We would not be selling the business to someone who we feel would not give good service.
