

December 2025 IQ Club

Placemat with Scalloped Window

Saturday, December 13th

1:30 pm – 3:30 pm

We will use IQ Designer to create an In-the-Hoop Placemat featuring a scalloped window. We will work with line types, fills, and layering parts to create our embroidery designs. Your fabric choices and fill selection will allow you to create placemats for any occasion. We will not have time to stitch our design class, but you should go home with a completed design.

Supply List:

- Any embroidery machine with IQ Designer in good working order w/ power cord, stylus, mouse (optional but helpful), embroidery unit and embroidery foot.
- Mastering IQ Designer Project and Instruction Book
- For Solaris and Radiance owners, any design suite files could also be used.
