# HQ Pro-Stitcher®

Computerized quilting to help your ideas become a reality

*Handi Quilter® is a leading manufacturer of quilting machines, computerized quilting systems, frames/tables and quilting accessories. Handcrafted in the USA, the HQ Pro-Stitcher computerized system works with all Handi Quilter stitch-regulated carriage systems. You can be sure that you have purchased the highest quality product, which is backed by the HQ warranty and the largest network of local representatives. Using integrated HQ technology, the HQ Pro-Stitcher offers the best of both worlds: computerized quilting and free-motion quilting in the same package.*

**The HQ Pro-Stitcher is available for the following stitch-regulated HQ quilting machines:  
HQ Sixteen®, HQ<sup>18</sup> Avante®, and HQ<sup>24</sup> Fusion®.**

# HQ Pro-Stitcher®

Computerized quilting to help your ideas become a reality

## Machine Features EZ Carriage/EZ Record features

- 11.6-inch color touch-screen computer mounted on your HQ stitch-regulated quilting machine
  - No additional computer needed to run the HQ Pro-Stitcher (Separate PC needed for downloading new designs.)
  - View and manipulate designs right on the screen
  - Operate entire system from one screen
  - Easy to download your favorite patterns from a USB port
-  Switch between computer-guided and free-motion quilting at the touch of a button
-  Easily and smoothly record freehand quilting designs for future use; newly created designs can be saved on a USB or hard drive of the Pro-Stitcher to be resized, repositioned or edited with *Art & Stitch*® (EZ Record not available on the HQ Sixteen machines.)
-  Save time when finishing quilts that combine both free-motion and digital motifs
- Silent, integrated motor-control systems with fluid motion control
- Handcrafted in the USA and built with integrated HQ technology following our 7-step quality control program
- Define and Fill an area with a design, using 2-corner (for rectangles) or multi-point (for any shape)
- Two-Point Rotation to place border designs and fit odd angles
- Precisely Reposition designs using the Center Point, Start Point, End Point, any corner of the design area, or any point within the design that the quilter may choose
- Crop inside or outside of any part of your design to fit your quilt, with the option to close the jumps or leave them open
- Isolate a motif from any quilt design to create a new design for customization
- Save a design or an entire project
- Wrap or offset rows or columns
- Find or create New Start/Stop Point if your thread breaks
- Set quilting speed and stitches-per-inch
- Micro Tie-Off function
- Help menus always accessible
- Quilt edge-to-edge or block patterns with confidence in a few simple steps
- Ability to read most .hqf, .txt and .qli digital quilt patterns
- Exclusive, seamless integration with *Art & Stitch*® included for designing and adjusting your own patterns at the machine
- Mark and record multiple points for simple and accurate stitch-in-the-ditch
- Duplicate a design
- Review the past designs used in Recent
- On-screen Grid and Ruler to measure designs or area on quilt
- Reorder your designs for stitching
- Flip and mirror
- Horizontal and vertical channel lock

## Selected Software Features (There's so much more!)

- Resize, Rotate and Repeat (horizontally and vertically) designs to fit specific areas
- Skew or Align designs to fit any area with three or more points
- Load and work with multiple designs
- Move or Drag designs into position by simply dragging your finger across the screen
- Horizontal and vertical channel lock
