Bring in only your attachments, a 3-ring binder, and paper, then we will get started identifying all of the attachments that you and everyone in the club has. Introducing the Seurat line from Robert Kaufman! Featuring the painting from Geroges Pierre Seurat, "The Seine at Courbevoie" this line is an absolutely stunning mixture of color and texture! Seurat was known for his technique, pointillism, which uses thousands of tiny dots to create a painting. These dots can be exquisitely seen in this fabric line from Kaufman. With a panel at the center, and borders to surround, we love everything about this quilt and fabric! Kits coming soon to Sew Pieceful!

Introducing Kantha from Windham Fabrics!

This type of fabric originated in South Asia and is a centuries-old form of embroidered quilt making that would be passed down from generation to generation. Kantha is a two-layered fabric that has hand embroidered running stitches in it which gives it a slightly wavy look. This fabric is absolutely stunning and would be perfect for a table runner, boho bag and so much more! Kantha is a fabric that is out of our box here at Sew Pieceful, but we love all of the possibilities it holds!

A N O T E F R O M M A R I E

With how long this winter was, it is finally summer here in Tomahawk, and all of us at Sew Pieceful are 'sew' happy for that! We have many amazing projects headed your way this summer and cannot wait for you to see them! June is one of our favorite months for many reasons. The Wisconsin Quilt Shop Hop starts on the 7th and it is three fantastic weeks of seeing new and familiar faces as many of you complete either part of or the entire hop. We also love June because so many of our summer friends are back up either all summer or on the occasional weekend and we are looking forward to catching up with all of our summer quilting friends! I'm thrilled to constantly see all of the beautiful quilts that you're all making and cannot believe that this December we will be celebrating our 10th Anniversary! Without all of your love and support, we would not be here, and I am so very grateful to call you friend. Thank you for all of your continued support, and here's to another 10!

D I D Y O U K N O W ... ?

The "crazy quilt" was introduced during Victorian times. In order to showcase their wealth, high-brow women would use expensive fabrics, like velvet or silk, and brightly colored thread to make quilts. They were intended to be admired as art, not used for warmth or protection.
