

## Snowbird Strip Tube with appliqué flowers and vines

### Fabric Requirements

2 jelly rolls

Step 1 – sort the 2 jelly rolls into 14 strips each of light, medium and dark. I want to use light and medium on the piano keys borders so I tried to use some medium dark as medium to keep the lighter colors for the border. There is also enough of the dark for the inner border or if you want to do a smaller inner border then for binding.

Step 2 – sew the light/med/dark combinations together in strips.

Step 3 – Right sides together sew two 3 strip combinations together – see picture. I put dark on top of one side and light on top of the other.

Step 4 – using the Strip Tube ruler cut out squares and press open – see pictures.

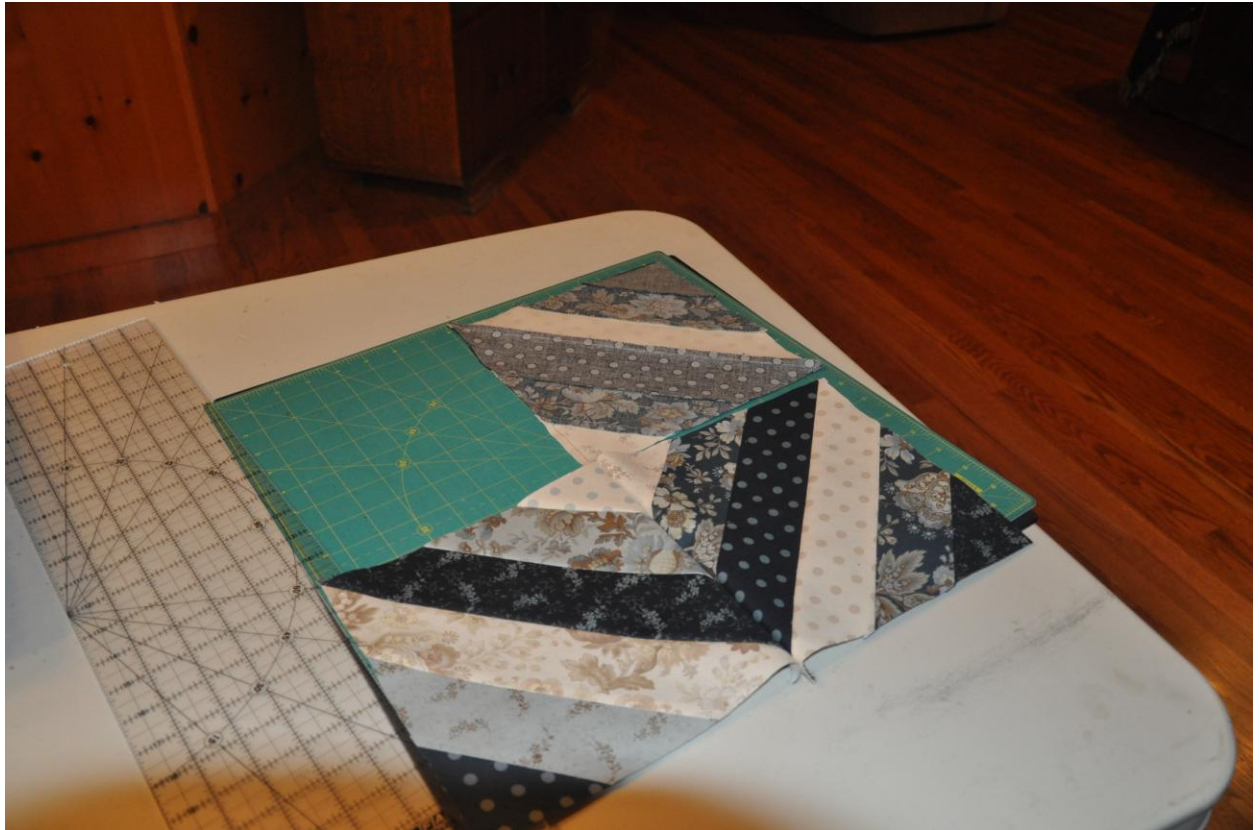

Step 5 – Lay out your blocks to get the effect you desire. There a lots of ways to lay these out but I used 4 block approach like picture

Step 6 –Sew blocks together in rows then rows together and finish as desired

Not crazy about what I did with the blue on my corner posts but oh well
