# QUILT PREPARATION

- **Mark Which Side is the Top of your Top**

- **Press Seams on the Top and the Backing**

- **Stay Stitch Around the Edges of the Top**

This isn't absolutely necessary, but it will make your longarmer so happy

- **Measure the Backing**

THIS IS THE MOST IMPORTANT STEP! You need to make sure your backing is 8" wider and longer than your quilt top. That means an extra 4" of backing on all sides

- **Measure Your Batting (Or Buy From the shop)**

Just like the backing, please make sure you batting is larger than your quilt top.
