Fall and Winter are great times to work on your crocheting and knitting! While many of us here at Amazing threads typically work on our projects year round, we're excited to see our customers getting back into their passions as the weather is starting to cool down.

This fall and winter we're going to give something new a try...

.....INTRODUCING.....

Seasonal Sweaters!

This series of classes will be done with the seasons...as suggested by the name. Instructors will be rotating to facilitate for each season. Each project will be offered for a longer time period in order to accommodate finishing your sweater. We are offering a variety of styles and techniques within each series, as well as yarn weights and finished fabrics, so be sure to check out each season's selection!

Each class will have a total of 6 sessions! Each instructor will host a 1 hour mini-class specifically dedicated to help you select the correct size, talk about how the pattern is designed (for example, if it's designed in pieces or seamless, how much ease is in the pattern, etc.) and then help you select yarn (or discuss what you've already selected). Your instructor will address any other necessary topics. Each sweater will offer five 2-hour sessions during a 3 month time period. Timing between sessions will vary depending on the pattern and what the instructor.

We hope you will join us for this series, but as always, spots are limited, so be sure to grab one soon!
