

# 1300 North Pipeline Project

## Project Information

The Davis and Weber Counties Canal Company (D&W) will be installing a 42-inch secondary water line in 1300 North from the D&W Sunset Reservoir near Main Street in Sunset to 925 West in Clinton (see map on reverse side). This project is needed to meet current and future water demands in the D&W service area.

## Tentative Work Schedule

*The following are planned construction activities. Please note that due to weather conditions, emergency situations or equipment/supply issues, schedules are subject to change.*

### PHASE 1: 1300 North; Railroad Crossing to Reservoir (500 West to Main Street, Sunset)

- Sept. 4 to 7 ● Construction site preparation begins. Residents and motorists should expect to see construction equipment and traffic barrels placed in the construction zone.
- Sept. 10 to 28 ● Dig bore pits and railroad crossing bore.
- Early Oct. to Dec. ● Trench excavation, pipe installation, and road repairs.

### PHASE 2: 1300 North; 925 West to Railroad Crossing (925 West to 500 West, Clinton)

- Early Nov. to Jan. ● Trench excavation, remove old pipe, install new pipe, and road repairs.
- Early spring 2019 ● Project cleanup and final paving.

## Anticipated Construction Impacts

- ▶ Crews plan to work Monday through Friday from 7 a.m. – 6 p.m. Weekend and night work will be scheduled as-needed.
- ▶ Motorists should expect road closures and detours during the construction of this project. If travel is time sensitive, motorists are advised to avoid the area or take the signed detour routes.
- ▶ The project team will provide advance notice and coordinate with residents who may be affected by temporary driveway closures. During driveway closures, residents will need to park their vehicles on a nearby side-street.
- ▶ Road construction involves open trenches and heavy construction equipment. To maintain safety in the work zone, residents are asked to avoid open trenches and take appropriate safety measures with children.
- ▶ Utility service interruptions are not planned, but due to the nature of construction, unplanned service interruptions are possible. The project team will provide advance notice of any planned service interruptions.
- ▶ Fines for traffic violations through construction zones are significant. Drivers are encouraged to follow all signs and flaggers through work zones to promote public safety.

## More Information

Residents or motorists with questions or concerns may contact the project public information team:
