

## **Fusible Applique with Amy Bradley**

August 28, 2026 10am–4pm

### **About the Class:**

In this workshop, you will learn fusible applique techniques and machine stitching tips from Amy Bradley and her 23 years of designing fusible applique patterns. Each participant can bring any of her patterns to work on in the class.

### **Supplies:**

In every pattern, there is a bright piece of paper that is the material list. It will tell you exactly what to bring to class. If you are doing a quilt, you will bring enough supplies for 1-2 blocks. If you are doing a wall hanging, you will bring all the supplies. Amy will provide an 8" x 8" block to take home to practice the new stitching tips. You can bring your sewing machine or not; some quilters like to practice their stitching at home. You will be busy with tracing, fusing, and Amy's two demonstrations.

***Cancellations and refund requests must be made at least two days before class day. No refunds for missed classes.***
