

Microwavable Bowl Cozies Tutorial

These bowl cozies are fast and easy to put together! With the Warm Tater batting, these cozies act as an insulator and a built in hot pad for the bowls as they are warming up in the microwave.

Supplies (to make one cozy):

- 2 11-inch squares of fabric (can be the same color/fabric or two coordinating colors/prints)
- (2) 11-inch squares of 100% cotton batting
- Coordinating Thread
- Marking Pen (like the Frixion pens or highlighters)

Instructions:

1. Place one fabric square on top of one square of batting. Make two.
2. Draw lines from corner to corner and vertical and horizontal lines on the batting side. Trace a circle in the middle of the square using a DVD or CD, line up the holes in the DVD with the lines you have already drawn.
3. Sew all four lines. Do not sew the circle yet.
4. You will make four darts on the vertical and horizontal lines on each piece. Fold the square in half on the sewn line. Measure over 1-inch from the fold, draw a line from the top of the fold to where the sewn line meets the circle, do this on all 4 sides and sew darts. Trim darts to 1/4".
5. Sew the circle on both sandwich pieces.
6. Put the two pieces right sides together and sew a 1/4" seam around all four sides, leave approximately 4" to turn cozy. Trim corners and turn.
7. Stitch opening closed. Top stitch 1/4" near the edge all the way around the cozy. You now have a finished bowl cozy.
