

SUPPLIES you will need to bring:

*Sewing machine in good working order, and its accessories (including the power cord, presser feet, sewing machine needles, bobbins, etc.).

*Common sewing supplies - including good quality thread for piecing your quilt top; a pair of scissors for snipping threads; straight pins (non-melting heads recommended); seam ripper; hand-sewing needles; and, any additional sewing supplies that you consider essential.

*Quilt-making supplies - long acrylic ruler (such as 6.5"x24" or 6"x24") AND rotary cutter with NEW blade (and consider bringing an extra blade) - 45 mm.

*Quilt pattern - beginner level

*Fabric - Quality 100% cotton fabric - amount required for pattern. A word about fabric...beware of thin loosely woven fabric as it may not lend well to your project and may not hold up through repeated washings. If you think you're going to want to use the same fabric in the top and back (and/or binding) of your quilt, be sure to purchase enough fabric for that. We are happy to help you with fabric selection and help you with the fabric requirements listed on your pattern.
