

Template

Video tutorial available:
www.NeedleinaHayesStack.biz

I suggest you trace this shape and all notations onto a piece of template plastic.
Cut out the shape on the outer lines. You can then use it as you would the acrylic tool.
Be very careful not to cut through the template plastic as this will alter the size of your shapes and decrease your accuracy.

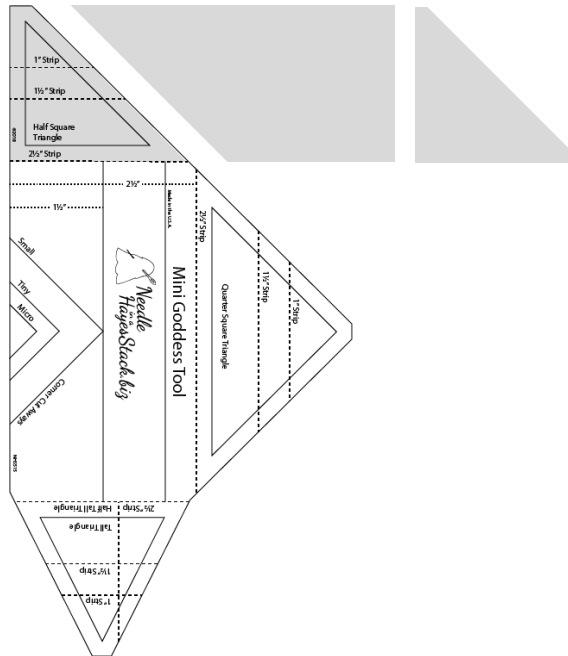

Quarter Square Triangle (QST)

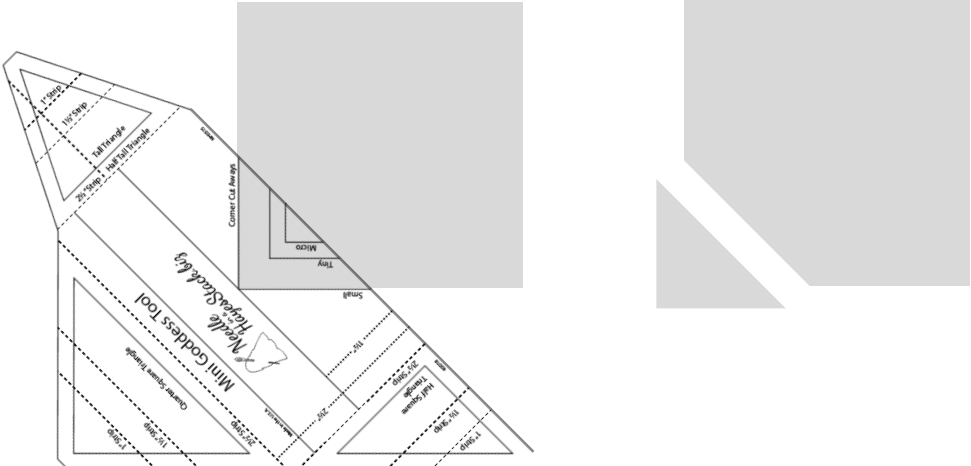

Half Tall Triangle (HTT)

Half Square Triangle (HST)

Corner Cut Away (CCA)

Tall Triangle (TT)
