

Anse Chastanet - April 22 – 30, 2016

Spring in Saint Lucia

From the amazing Piton mountain peaks rising out of the sea to the pristine, uncrowded reefs and black sand beaches, Saint Lucia is a truly beautiful island with something for everyone. You can spend your time diving, snorkeling or exploring the island with options for excursions such as rainforest jungle biking, windsurfing, mini-sailing and adventure tours to hot sulfur springs or volcanos.

Our host resort for this trip, Anse Chastanet, is a multi-award winning property in the heart of a marine reserve which is home to a spectacular reef perfect for all levels of diving. Our dive group will have our own boat and crew and our own agenda. Most dive sites are only a short 15 minute boat ride from the property. These sites offer a great variety of life, color and excellent visibility with opportunities for drift diving and wreck diving as well.

To sign up for this trip, please contact us at Denver Divers, 303-399-2877 or alimiller@denverdivers.com
