

2021 Temperature Quilt SAL Info

JOIN MINDY FOR THIS FUN, YEAR-LONG SEW-ALONG IN 2021!

Make a two-color block to represent the high and low temperature each day in 2021. Arrange them to look like a calendar, as Mindy's is, or any way that works for you.

Each month has a different block, but each day in January, for example, has all the same blocks to give cohesion to the quilt. February will feature a different block, and so on.

The block patterns are Moda Cupcake Paper Patterns. Mindy will provide more specific information when you join the group.

You can also choose to purchase a Starter Kit of 12 one-yard fabric choices that will beautifully illustrate your Temperature Quilt. See the Color Chart for the fun palette. There is also a blank

Color Chart if you choose to do your own colorway.

The quilt will be a king-size quilt, finishing at approximately 115" x 140". This will make a great keepsake of the year. Choose to make it smaller by skipping the sashing and borders.

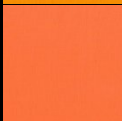

Mindy will host a private Facebook group for participants. She will also do live videos each month to get you started on that month's block pattern. If you've ever done a Sew-Along with Mindy, you know she is full of tips and hints to help you along. You can also use the group as a way to stay accountable and on track!

Contact Quilting Mayhem at info@quiltingmayhem.com if you have any questions.
