## **Psychedelic Baby - January 19 (10:30am - 4:30pm)**

### **--Pre-Class Instructions--**

**Teacher: Katie Pedersen aka SewKatieDid**

**Prior to class, you will need to cut strips from each of your fabrics. Strips should be a mix of somewhat consistent width and angled (wedge-shaped) Strips.**

To cut the strips:

- Fold the yardage in half once, matching the selvages, and square up the top edge.
  - Cut a variety of consistent-width strips that measure between 2" to 4" (we're improvising here so it doesn't have to be exact).
  - Cut a variety of angled strips by placing your ruler at the desired angle and cut along the ruler's edge. Again, these strips should measure between 2" and 4" in width.
  - Cut the strips in half at the center fold to yield (2) shorter strips of about 2 1/2".
- Their shapes should look like the photo below. Some will be even-width and some wedge-shaped and all different sizes in width.
