

# Amanda Bierbaum

**Amanda Bierbaum is a painter, photographer, and surface pattern designer based in Western Wisconsin. She works in watercolor, pen and ink, photography as well as digitally.**

**In the summer months, when she is not creating artwork, she can be found tending to her gardens which create the inspiration for her botanical work. For Quilt Minnesota 2023, she focused on the flora and fauna native to Minnesota. While her gardens are her inspiration, seeing what others create with her designs is her motivation.**

**Please feel free to tag her @amanda\_bierbaum on instagram if you are sharing an image of a project created with her designs.**
