

KIDS KAMP 2020

FABRIC SEWING TRAY JULY 16, 2020 2pm

SUPPLIES:

Two 12" x 12" pieces of cotton fabric

One 12" x 12" Single Sided Fusible Batting

Spool of construction thread

48" of ¼" wide ribbon

Standard presser foot

Point turner

Frixion marking pen

Ruler

¼" Applique Wonder Tape or ¼" Steam a Seam

Basic sewing supplies: scissors, ruler, wonder clips, pins, seam ripper, ect.

INSTRUCTIONS:

1. Cut ribbon into eight 6" pieces.
2. Place the fusible batting on the ironing board with fusible side facing up. Place front 12" x 12" fabric wrong side down of batting. Fuse with iron.
3. Measure and mark 3" on both sides of all four corners on the right side of the fabric square for a total of eight markings.
4. Place the square on a work surface right side facing up. With the raw edges even, and the ribbon tails laying on the square, pin or clip the ribbon on the markings. Sew in place.
5. With the right side facing up, lay this piece on the work surface. Make sure all the ribbon tails point toward the center of the square.
6. Place the second piece of fabric on top, right sides together.
7. Pin all the layers together.
8. Using the edge of the foot as a guide, sew around all four sides. Leave about a 2" opening for turning.
9. Turn right side out. Use the point turner to make nice corners. Press.
10. Sew the opening by hand or use a ¼" fusible and press closed.
11. Lay out on a flat surface. With the Frixion Pen, draw a square in the center, leaving a 2" border all the way around. Sew along the drawn lines. Press to remove the pen.
12. Tie two ribbons into a bow at each corner.
