

## Thanks A Latte!! Mug Rug

1. With a ¼" stitch, sew the long edges of the black background fabric and the gold fabric.
2. Download the embroidery outline designs from the Accuquilt website, or set machine for your favorite applique stitch.
3. For applique, fuse cups, handles and tops to the black background fabric. Stitch pieces.
4. If using embroidery, load embroidery to machine. Arrange cups. Add embroidery lettering as desired. Hoop fabric with tear-away stabilizer. Stitch placement. Fuse pieces to placement outline and stitch. Continue with all embroidery. To make gift pocket, fuse a heavy stabilizer to the back of the cup handle. Place tear-away in hoop. Embroider the handle top only. Remove from stabilizer. When embroidering the handle on the cup, avoid embroidering the top of the handle, leaving the top open.
5. Trim fabric to 10" width x 8 ½" height. Layer with fusible batting and backing. Bind.
