

Mystery Table Runner #4 – Part 2

Test your ¼" seam

It is essential that you are accurate with your piecing. Stitch 4 x 2" scrap strips together, press and measure. They should measure 6 ½" inches in width. Adjust your seam allowance if necessary by moving your needle position.

Directions:

- Lay your 4 strips of fabric in a pleasing order.
- With right sides together stitch one 2" strip to another 2" strip.
- Next stitch the remaining two strips together
- Now join these two strip sets together.
- You should now have a strip set consisting of 4 strips.
- Repeat for all 5 strip sets. All 5 strip sets should be identical.
- Lightly spray each strip set with Eileens Best Press
- Press the seams in one direction. Press all strip sets in the same way
