

Mystery #40

Part 4

Lay out the remaining segments of your mystery as below:

Now the fun begins!

We will embroider or applique in each of the four spaces using your desired technique.

I will be using the accuquilt cutter to cut my applique shapes, and then we will use the “free” embroidery design from accuquilt to position and embroider onto the project.

At this point, if you did not purchase a kit, you can use the applique shape I have provided, or choose an embroidery design of your choice to position onto the blocks.

After you have finished embellishing your project, we will then stitch your 1 ½” green strips to side, side, top, bottom.

Now layer your project with backing, batting and quilt top, fuse to hold in place. Quilt and bind as desired.

I am going to show you how to take your embroidery design, create a stamp, resize the stamp, save the stamp, bring the stamp into IQ, set a run stitch and use this as our quilting design.

I hope you enjoyed this mystery!
