GO! Spinning Web Table Topper

October 9, 2019 - 9:00 -12:00pm

This project is designed as a table runner/topper adapted from the GO! Spinning Webs Throw Quilt, Accuquilt Pattern # PQ11619. This classs version, consists of 3 12" blocks created from the Spider Web 6" finished blocks, die #55487, framed with a 1" inner folded border and a 3" single color outside border. Techniques for cutting and assembling the spider web block will be emphasized, and the alternate 2 color "triangle-in-a-square" optional border for the throw quilt will be demonstrated. Students may choose to make the 3-block table topper or work towards construction of the Spinning Webs Throw Quilt from the original pattern. Fabric requirements listed below are estimated for the table topper (approximate size, 17" x 40"); pattern PQ11619 lists fabric requirements for the throw quilt (approximate size 50" x 56"). Applique spiders can be machine appliqued or embroidered with Accuquilt free embroidery designs for Halloween Medley. Spiders can be embellished with buttons or crystals.

Class supply list:

Pattern: GO! Spinning Webs Throw Quilt PQ11619

Go Dies: **#55487 Spider Web 6"** finished (It is recommended for this class that you provide your own dies with cardboard direction cover, and corresponding mats) The store's GO Big Electric Cutter will be available but you may also wish to bring your own cutter to avoid waiting and sharing. Please be sure your dies, mats, and directions have your name on them.

                    #55192 Halloween Medley
