

**Aye Votes: Mayor Thayne Council Member Spackman  
Council Member Bingham Council Member Anderson**

4. Planning and Zoning
  - a. Porter Heusser Subdivision Revision—Planning and Zoning has already approved the changes. He changed the size of the lots and the name of the subdivision. He will pay Hansen and Associates for the new review. If there are other charges for recording etc. , I need to let them know.

**Council Member Spackman moved to approve the agenda and Council Member Bingham seconded the motion. All ayes**

**Aye Votes: Mayor Thayne Council Member Spackman

**New Business:**

5. BRWCD Master Plan Discussion—Dave Forsgren, mayor of Honeyville presented the draft for the wells which are on private property so it will be up to the homeowners to sell the property that is needed. There is a need for another 10 or 12 inch line for Tremonton and Chanshare. The District will need to negotiate with those homeowners. This is still in draft form so things could change. Council Member Bingham believes it will affect the other springs in Deweyville. It would be a fight for the water rights. The Mayor was told by Bill Bigelow that it shouldn't affect the other wells and springs because the District would be drilling very deep. The District would need to monitor the level of the springs and the causes of fluctuation. Council Member Spackman has prepared a letter to the District's Board Members stating Deweyville's opposition to the proposal. The District has good negotiators and they have only had one lawsuit. They are using grant money to do the studies. They are doing a recharging system in Brigham City where in the spring when water is plentiful, they pump the water back into the spring to be held until needed. The District was formed to provide and manage water for everyone now and in the future.
6. Memorandum of Understanding/Construction of Deweyville Fire Station—Mayor Thayne presented the financial aspects of the construction. The District will be leasing the ground for \$1 a year. Fire Station must be used for at least 10 years or we must pay the county the money the county has contributed and Deweyville will be able to purchase the building. Deweyville is not giving them the land which is common. Deweyville's share is \$13,000. This includes volunteer hours and supplies. Council Member Spackman will give it to them tomorrow.

**Council Member Spackman moved to approve the Memorandum of Understanding/Construction of Deweyville Fire Station and Council Member Bingham seconded the motion. All ayes**
