

# Cuddle Suede tips

## **Below are a few tips and tricks for working with Cuddle Suede!**

1. Fabric Type: Cuddle Suede is a napped woven polyester. Easy to sew and care for.
2. Pins: Use standard sewing pins. Pins will not leave holes.
3. Needle: Use a universal needle. Size 75/11. We like SCHMETZ!
4. Pressing: Use a press cloth and regular steam iron (press cloth can be a very thin dishtowel- a half yard of white cotton washed make a perfect cloth). Press the seams open on *wrong side* without the cloth. Then turn seam over, apply the cloth to the *right side*, and use steam from the iron.
5. Finishing/Edges: Cuddle Suede frays, so finishing the edges is recommended. Use pinking blade, serger, or hem edges.
6. Lining/Garments: Lining Cuddle Suede is not necessary. However, to achieve a more luxurious garment, our Silky Satin is ideal.
7. Care and Wash: Machine wash cold and tumble dry low. If you prefer, Cuddle Suede can be drycleaned.
8. Uses: Can be used for garments especially jackets, vests, skirts, home decor, pillows, throws, handbags, totes, slippers, pet beds, and appliqué.
