

How to Make a Mini Table Runner

Your kit includes 2 pieces of fabric, 2 buttons and instructions.

With right sides together (RST), place the 5" strip on top of the 9 1/2" strip. Sew 1/4" seam down the long side.

Now match up the other long side of the fabric RST and sew 1/4" seam.

This will create a tube.

Turn your fabric tube inside out and press so the center print is bordered evenly on the long sides.

Use your ruler and rotary cutter to cut off the selvage and trim short ends even.

Fold fabric in half lengthwise, top side out.

Stitch 1/4" seam on both short ends. Press seams open. Turn seams inside to form a point. Press.

Stitch buttons on each end and toss it on the table to enjoy!
