December: Finishing Part 2

Head Start Notes!

Note: You received your setting triangle fabric and direction for cutting the side triangles in your first finishing kit (in July). You should already have large and small setting triangles cut. You will need these now!

First Blocks Border:

1. Using three blocks, four small setting triangles and four large setting triangles, construct a side border as shown. Always press towards the setting triangles. Make two of these and sew them to opposite sides of your completed center.

2. Now use five blocks, four small setting triangles and eight large setting triangles to construct a top/bottom border as shown. Again, press towards the setting triangles. Make two of these and sew them to the top and bottom of your quilt center.
