Bound Snuggle Blanket

Supplies:

Blanket kit containing:

- 2- Pieces of matching cuddle fabric
- Binding fabric; cut 2" strips
- 505 spray glue
- Matching thread

This snuggle blanket will soon be your favorite blanket, and it is so simple to make.

1. Lay the two fabrics wrong sides together. Make sure the nap is going the same direction. Folding the top layer back halfway over itself, spray-fuse the two fabrics together. Repeat for the other side.
2. To make it simple, I like to round the corners, using a saucer or bowl.
3. Bind the blanket using the coordinating 2" binding strips. I use a $\frac{1}{2}$ " seam. I like to use the serpentine to top stitch it down because it is strong and stretchy.
4. Enjoy! These little blankets are polyester so they wash and wear forever, be careful not to use too much heat.

For more information on binding your blanket go to the learning center at www.cuddlesoftkits.com.
