

Creative Sewing Machines' Workbook based on BERNINA Embroidery Software 7

Click the Polygon Select tool and then click around the shape to select it. You don't have to close the area, just get the starting and ending points close to each other and press Enter.

The design area now has the running lines around it, click the select object tool and grab and move the area. Clicking the Select Object tool dismisses the Polygon Select tool.

To delete, press the delete key or go to Edit>delete.

To copy and paste, click the rubber stamp tool.
Save the design if you wish.

Designs cannot be sewn directly from the Cross Stitch Program.
You must save the design as .ARX file type.

Return to the Software 7 design screen.

Click the Open icon.
Go to My Designs-Embroidery Software 7.
Scroll to the Cross Stitch folder you just created.
Double click to open the Cross Stitch folder.
Go to the bottom of the Open box and locate Files of type:
Click the scroll arrow.

Select either artista Cross Stitch (*.ARX) or All Files.

The Cross Stitch files you saved are now available.

Click Cross Stitch Types.ARX.

Open.
You may get the warning box: Non-native design.
Click OK.
