

EAGLE SCOUTS

From the Eagle Scout Project Workbook

(<http://www.scouting.org/scoutsource/BoyScouts/AdvancementandAwards/EagleWorkbookProcedures-PC.aspx>)

"You must show that planning, development, and leadership will take place; and how the three factors will benefit a religious institution, a school, or your community."

You may consider the following city challenges to help you identify potential Eagle Scout projects, but the planning, development and leadership will be completely up to you. Eagle Scout project ideas will be approved when a scout approaches the city with a specific idea and plan to implement the idea. Scouts should not expect the City to suggest or plan any aspect of the project for them.

Are you ready to submit an idea? [Eagle Scout Project Application](#)

Project Ideas

- * Organize a Tree Care Project for a neighborhood, city street, or city park.
- * Help improve or construct walking & biking trails in designated areas of the city.
- * Sponsor/chaire an event at the annual Lindon Days Celebration in August.
- * Fund raise, purchase and install various park features, including playground equipment, picnic tables, park benches, pavilions, etc.
- * Help maintain the safety of the city by painting fire hydrants and red curbing
- * Elderly residents may have difficulty changing their own carbon monoxide or smoke detector batteries.
- * House numbers on homes are incorrect, missing or are not visible from the roads which may result in emergency services delays.
- * House numbers painted on curbs are sometimes helpful to emergency responders but not all homes have the numbers on the curb.
- * Residents are often unprepared to evacuate with their pets in the case of a wildfire or other evacuation scenario Large animal evacuations have been difficult in previous wildfire incidents due to the lack of lead ropes, halters, etc.
- * Youth sports teams may not have adequate first aid kits to distribute to coaches for use during practices or games.
- * Fire hydrants may need to be repainted in certain areas of the city. Vehicle access gates along the city trails may need to be repainted.
- * Horse arena panels may need to be repainted.
- * Trees have died along city trail areas (specific trees are required by city ordinance and landscaping design).
- * Signs in need of repair, replacement or reconsideration (e.g. yield versus stop sign) need to be identified.
- * An evacuation center kit needs to be assembled with the correct forms, directional signs and supplies to be used in the event an evacuation center is established.
- * Animal services has occasional needs for supplies
- * Some trail systems may have safety hazards (potholes, low-hanging tree limbs, etc.) that need to be identified and remedied.
- * Occasionally playgrounds need to be repaired or replaced and volunteer labor is needed to construct the equipment.
