	HAZARD EARTHQUAKE ZONE (HE) PRIMARY SURFACE FAULT LINE

THE LOCATIONS OF FAULT LINES, HIGH WATER TABLES, FLOOD ZONES, AND SLOPES 30% OR GREATER, ARE ONLY GENERAL APPROXIMATIONS. PARTS OF THE FLOOD PLAN ARE BASED ON A FEMA FLOOD INSURANCE RATE MAP (FIRM) OF THE AREA SURROUNDING PROVIDENCE. HOWEVER, ACCORDING TO A LETTER FROM FEMA, THIS FIRM HAS BEEN RESIGNED AND THE COMMUNITY HAS BEEN DESIGNATED A "NO SPECIAL FLOOD HAZARD AREA (NSFHA)."

THERE ARE TOO MANY VARIABLES INVOLVED TO KNOW WITH CERTAINTY WHICH AREAS WOULD BE DAMAGED FROM ONE OR MORE OF THE ABOVE HAZARDS. EARTHQUAKE DAMAGE, FOR EXAMPLE, MAY BE GREATER TO STRUCTURES FARTHER FROM A SURFACE FAULT LINE THAN THOSE CLOSER. THIS MAP CAN ONLY SHOW THE GENERAL AREAS WHERE SUCH HAZARDS MAY EXIST.
