Beginner Workshop Dates: August 8, 10 & 15

Class Sessions Begin August 17 & 18, 2026

Stitcher's Quest is excited to offer the Sewciety Kids after-school classes! This proven curriculum is being followed in local quilt shops nationwide and inspires creativity while teaching an important skill. Our after-school classes are designed to keep children engaged while learning to sew. Kids will be engaged and working on their project actively for the duration of each class.

Attendance at a 2-hour Beginners Workshop is required prior to registration for the first 6-week class session. The Beginners Workshop gives the students an opportunity to get familiar with the sewing machine and complete a project before committing to the 6-week program. Kids 7 and 8 years old must have a parent or guardian accompany during the workshop. Ages 9 and up may attend workshop independently or with an adult.
